The Dog Law.

The New Castle Record says:

While there is a State dog law, the people of this county have here received any of the Vener's had occasion to speak to the property of the Vener's had occasion to speak to the property of the county from the operation. We authorities and have been furnished. This may be due to an oversight, but it receives to us it could be and should be remedied in time to give the county the revenue to be derived from what we would consider a prolific source. The fund to the derived from the dog tax is a county affair entirely—the State getting no part of the revenue—and the law provides that such fund shall be at the disposition of the Board of Supervisors, who are to pay for all losses of sheep or stock by dogs, and the remainder, if any, to go to the free schools. This, we think serves a double good purpose—first to rid the county of a lot of worthless curs, which we need less than anything else, and to create a fund for the public schools—something that we need more of than anything else.

The Bristol Courier makes this remark in passing:
After some thirty years, the Republican newspapers are beginning to admit that Tilden was counted out. But they protested innocence then, just as they life up their hands in holy horror now when confronted with charges of fraud and corruption and evidence of guilt.

Farmville's Banks.

The Southside Examiner is evidently proud of Farmville's banks. It says:

An institution of which Farmville can justiy be proud is the First National Bank. Although it has been located here for a comparatively short time, yet the volume of business which it is doing speaks well for its management, and also for the prosperity of the town and surrounding country.

The Expense of It.

The Norfolk County Democrat looks at the State's cash account thus:
When all is said, however, the work of the Legislature is not likely to prove satisfactory to the people because of the expense the session has entailed. The feeling prevails that much of the work could have been better and more cheaply done by a commission than by the Legislature.

South and North.

The Rockingham Register says;
A Texas newspaper puts the case rather
neatly when it says that the South lets
the negro work, if it won't let him vote,
white the North lets him vote, but won't
let him work. As between working and
voting it isn't hard to see how any man's
interests lie, be he write or black.

Strong Faith.

The Franklin Graphic apologizes for and expressed strong faith in the Legislature It says: expressed strong faith in the Legislature. It says:
In justice to them, however, we will say that perhaps no previous Legislature was ever more severely tried than this one. They had many new conditions to meet due to the fact of making the new Constitution effective and operative, and last but not least, a "Campbell to move or remove, and if this job was as tresome to them as it was expensive to the State, they need a long rest. We trust that they meed a long rest. We trust that they meed a long rest. We trust that they may make their past mistakes profitable to themselves and to the taxpayers. We believe they will.

As To Third Terms.

Although it has been located here for a comparatively short time, yet the volume of business which it is doing speaks well for its management, and also for the prosperity of the town and surrounding country.

The business of the banks is the best index to the prosperity of a community. The Planters and the First National of Farmville, are as sound institutions of their character as there are in the State, and their prosperity shows that the public pulse of our section is in good condition.

The Northern Neck has for years been entirely dependant on Baltimore as a market for its produce, and in spite of this has already become noted for its trucking industry. There is no reason why, with these new lines, which give advantages of the great eastern and northern markets, that the Northern Neck cannot be made one of the frest trucking and fishing sections of Virginia. It is with a great deal of interest and enthusiasme that our people welcome the coming of these new lines of steamers, which promises to add so much to the business interests and wealth of the Northern Neck. In Trainer George R. Richmond's stable at the Hunt Club track Elevator has shown greatly improved form, and I look for him to enter the first flight of high jumpers, as he has a level head and manners that are near perfection. While from the loins of a stre, whose lineage is of the richest to be found in the American stud book, Elevator receives a strong infusion of trotting blood on the maternal side, being from Kitsy, a gray daughter of F. F. V. the son of Mambrino Patchen, 58, and she out of Lady Maury, an elegant road mare brought here more than twenty-five years back by O. J. ## THE OLDEST AND BEST RSES AND HORSEMEN SSSBLOOD PURIFIER

### THE GREATEST OF ALL TONICS.

A Spring Medicine that adds vigor and strength to the system, purifies and enriches the Blood, and lays the foundation for a strong constitution and good health during the hot sultry summer.

Most everybody feels bad in the spring. Some have no particular ailment but are just tired, worn out and totally unfit for work or anything else that requires energy or effort, They mope around upon the border-land of invalidism, irritable, peevish, hysterical and unreasonable.

A good appetite in the spring is a rarity, and we sicken at the sight of food, or thought of eating, and what little we do eat is a burden to the stomach and a tax upon the digestion. Warm weather is sure to bring out the hidden poisons, germs and seeds of disease that

have been collecting in the blood and system during winter, and you may look for some old chronic trouble to make its appearance. It is a time, too, when boils and carbuncles, and pustular or scaly skin eruptions like eczema and tetter, pay their annual visits and make life miserable by their intense pains and intolerable itching and burning.

The fight for health should begin before any warning symptoms of physical collapse are felt, or before the seeds of disease have time to germinate if we would avoid the usual spring sickness; and with S. S. S., the acknowledged king of blood purifiers and greatest of all tonics, you can put your blood and system in such perfect condition

and so strengthen the constitution that one may be as free from sickness and as vigorous and strong during the trying months of spring and depressing summer season as at any other time. S. S. S. not only builds you up, but searches out and destroys any poisonous germs or

impurities that may be lurking in the blood. The benefits derived from the use of S. S. S. are permanent because it acts directly on the blood and purifies and cleanses it of all impure matter, leaving nothing to cause fermentation and deterioration of this life-giving fluid. In selecting your blood purifier and spring tonic get one that long experience and thor-

ough test have proven the best. In S. S. S. you will find a remedy whose purifying properties are unquestionable, and just such a tonic as your system needs. Ask your druggist for S. S. S.—there is nothing else just as good.

For the past 40 years we have had a standing offer of \$1,000 for proof that S. S. S. contains the least particle of any mineral whatever, and this offer is still open.

Cassle Leo is a mare of fine form and appearance, and a grand high actor. She is credited with a trial in 2:17.12 in the early part of 1962. Later on she trotted to her record of 2:23.1-2 over the half mile track at Bethlehem, Pa., and after the close of the season was driven a mile in 2:13.1-2. Cassle Leo was trained and driven during 1962 by Thomas D. Rank, of Welsh, W. Mr. Harden's good looking four-yearold stallion, Sweet Rector, is in the stable of Silas Smith, Hertford, N. C., who

The Bible Syndicated.

Well, well! who would think it? Not even the Bible has escaped. A trust has advanced the Bible has escaped. A trust has advanced the price on the book of Holy Writ forty per cent. which is rapidly driving competing publishes to the wall. The head of the trust, however, does not give it any such sordid name. Since it handles Bibles only, the arrangement to prevent competition is merely "a gentlemen's agreement." This seems to work in the same old way. There's nothing in this world like being truly polite. At the same time, the gentlemen's agreement reminds one of Fresident Roosevelt's sort word and n big sitek. However, people cannot get along without coal and flour and beef, but they may manage to economize on Bibles, as the gentleman's agreement will discover.—Denver Times.

Populism is played out. A fish cannot live out of water. A calamity party cannot live without calamity. Abundant business and top prices, and everything going well at home and abroad for the United States make the mere kicker a protesque figure. Motley is not the American wear. The Populists have had their king, and as Republicans or Democrats now are, let us hope, the better citzens for the discovery that legislation, important as it is, does not make the sun to shine or the grass to grow.—Washington Star.
